Dear First Name:

Over the holidays, I met a client receiving gifts at our Angel Tree holiday gift give-away. As we were loading gifts into her car, she mentioned that all seven of her children have attended our Head Start program and just this past year, she received her High School Diploma through our online Education to Go program. It's moments like that when I am touched to the core.

When I'm speaking to supporters like yourself about Matrix, many are surprised to hear we actually EXPANDED our programs since the pandemic began, including a new rent and mortgage assistance program for people trying their best to stay in their home and off the street. Our Head Start program is the largest in the city of Detroit and continues to serve well over a thousand families. We even launched our largest HIV Prevention and Treatment ad campaign in 2021 to ensure those with compromised immune systems could get the care they need during an especially scary time. We made it through this pandemic so far without having to lay-off any of our staff as well, and that is all thanks to you.

Because we offer an interweaving *matrix* of services to people of all ages, we are able to catch individuals and families when they need it most and provide a hand-UP so they can get back on track. Often, those who need food also need rent or housing assistance, early childhood education, after school youth programs, senior services, and much more.

I thank you for recognizing the impact that Matrix has on the community and showing your support with this donation. And from the many people whose lives this will touch...

Thank you for making a difference,

Regards,

Brad Coulter
President/CEO
